**INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56 and 37 CFR §1.97**

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

Submitted herewith on Form PTO SB/08 is a list of documents known to Applicant in order to comply with Applicant's duty of disclosure pursuant to 37 CFR 1.56. A copy of each listed document is being submitted to comply with the provisions of 37 CFR 1.97 and 1.98.

The submission of any documents herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a prima facie prior art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The instant Information Disclosure Statement is being filed after the mailing date of a first Office action on the merits, but before the mailing date of a final Office Action or a notice of allowance. Accordingly, a certification or fee is required.

CERTIFICATION

The undersigned hereby certifies in accordance with 37 C.F.R. §1.97(e)(1) that each item of information submitted with this Information Disclosure Statement was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to the filing of this Statement.

RELEVANCE OF EACH DOCUMENT

A translation of a portion of a Japanese Office Action that issued November 20, 2003, with respect to a counterpart Japanese patent application, is provided below.

"Claims 1-45
Cited Literature 1

Comments

Cited Literature 1 describes an invention that performs a settlement after transmitting from a wireless telephone (corresponding to a portable wireless terminal) an ID number (corresponding to vendor identification data), use information (corresponding to transaction information), and a password (corresponding to authorization information) in order to perform the authorization.

B. The invention according to the claims described below in the present application is the same as in an invention (Utility Model Registration) described in the specification or drawings initially accompanying the application for a patent application (for Utility Model Application) described below that is a patent (Utility Model Registration) application with a date prior to the present application date, where the application publication (the publication

of the patent description disclosure or the publication of the utility model description disclosure), or the application publication was after the date of [the present] application, and the inventors (innovators) in the patent (Utility Model Registration) application prior to the [present] application are not the same as the inventors in the present application, and the applicant in the patent (Utility Model Registration) application is not the same as the applicant at the time of [the present] application, and thus no patent may be granted according to the stipulations of Paragraph 2 of Article 29 of the Patent Law.

Note

(For a list of the cited literature, see the List of Cited Literature)

Claims 1, 35, 37
Prior Application 2

Comments

The invention according to the prior application is seen as essentially the same as the invention according to the present application because an invention is described wherein the settlement is performed after sending a secret number (corresponding to "verification information") from a wireless terminal (corresponding to the "portable terminal device") and transmitting the purchase amount (corresponding to the "transaction data") the store number (corresponding to the "purchaser identification number") and an ID number (corresponding to the "vendor identification number") to perform the authorization of the individual.

Notifications of reasons for rejection will be provided in new reasons for rejection are discovered.
